Education

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
B.Tech. Major	Indian Institute of Technology, Guwahati	8.74 (Current)	2025-Present
Senior Secondary	CBSE Board	91.8%	2025
Secondary	CBSE Board	94.6%	2023

Projects

- **Brand AI-Readiness Audit: Agent Skill Marketplace** *Oct. 2026*
  Adobe University Hackathon 2026 – National Runner-Up Github
  - Built an **Agent Skill Marketplace** (**4 skills, 22 deterministic checks**) auditing any website for **AI-assistant discoverability** and engagement into one **schema-valid JSON report**.
  - Engineered a **robots-aware, GET-only BFS crawler** sharing one time/page budget across 3 detector skills, with **sitemap-driven template sampling** and per-redirect robots checks; audits a live site in ∼**13 s**.
  - Calibrated severities on field research across **5 AI assistants** and a **266-domain access screen** (bans on all 5 citation-critical crawlers: 0/150 cited vs 3/65 ignored), refuting 4 hypotheses via **matched cohorts**.
  - Audited the tool's own **47 reports** to find and fix **6 harness defects** (e.g., an apex-to-www split shrinking a 1,050-page site to 6 pages); validated by **99 unit tests** and 49 offline verification checks.

- **FarePlay: National Airfare Price Index** *Sept. 2026*
  Smart India Hackathon 2026 – MoSPI Problem Statement Github
  - Built a **Scrapy** + **Playwright** pipeline over **20 routes** × **5 advance-purchase windows** (100 tasks/day) behind a **compliance gateway** (robots.txt, ToS, rate limits), stored in **PostgreSQL**.
  - Implemented four **CPI-grade index formulas** (**Carli, Jevons, Törnqvist, GEKS**); switching to geometric means removed an upward bias present in **91.7%** of multi-quote cells (up to **11.3%**).
  - Served it via **FastAPI** and a Chart.js dashboard with **APScheduler** daily runs; covered by **148 unit tests**.

- **SkillDeck: AI-Driven Skill Analyzer** *March 2026*
  Rhapsody 4.0 Hackathon, IISc Bangalore Github
  - Built a **FastAPI** backend integrating **OpenAI and local LLMs** to concurrently extract, parse and normalize candidate competencies from **PDF**/**DOCX** files against a custom **JSON skill taxonomy**.
  - Engineered a **gap-scoring engine** that ranks skill deficits by **mandatory weighting**, **gap magnitude** and **required proficiency**, so the most critical gaps are addressed first.
  - Implemented a dependency-aware pathway engine using **NetworkX** and **Kahn's Algorithm** to generate topologically sorted, phase-grouped **learning roadmaps** from a curated course catalog.

Technical Skills

- **Programming Languages**: Python, C/C++, R, SQL, Javascript
- **Libraries & Frameworks**: Pandas, NumPy, Scikit-Learn, Matplotlib, Playwright, Scrapy, FastAPI

Key courses taken

- **Mathematics**: Linear Algebra, Calculus, Probability & Random Processes, Differential Equations, Statistics for Data Science
- **Computer Science**: Data Structures and Algorithms, Discrete Mathematics, Introduction to Computing

Positions of Responsibility

- **Deputy Coordinator**, Coding Club, IIT Guwahati *Sept. 2026 - Present*
- **Organiser, Web Operations**, Techniche, IIT Guwahati *Feb. 2025 - Present*
- **Branch Representative, Data Science and AI**, Students' Academic Board, IIT Guwahati *May 2025 - Present*

Achievements

- **National Runner-Up**, Adobe University Hackathon 2026, among **3,00,000**+ participants; one of the **top 8 teams** invited to the finale at **Adobe India HQ, Noida** *2026*
- **Codeforces**, Max rating 1320; longest daily solving streak of 100+ days *2026*
- **All India Rank 973**, Joint Entrance Examination (JEE) Advanced, among 0.18 million candidates *2025*
